INSTRUCTIONS

This form has been designed and issued for use in connection with the transfer of military real property between the military departments and to or from other government agencies. It supersedes ENG Forms 290 and 290B (formerly used by the Army and Air Force) and NAVDOCKS Form 2317 (formerly used by the Navy).

Existing instructions issued by the military departments relative to the preparation of the three superseded forms are applicable to this form to the

extent that the various items and columns on the superseded forms have been retained. Additional instructions, as appropriate, will be promulgated by the military departments in connection with any new items appearing hereon.

With the issuance of this DD form, it is not intended that the departments shall revise and reprint manuals and directives simply to show the number of this DD form. Such action can be accomplished through the normal course of revision for other reasons.

Preparation of DD Form 1354 (Transfer & Acceptance of Military Real Property)

Upon receiving information on a DD Form 1354 the real property office will enter the information in the appropriate fields/screens in the automated real property system. The voucher register will be updated with the information and the DD Form 1354 filed in the real property records.

Purpose. This table provides the procedures for completing DD Form 1354 (Transfer and Acceptance of Military Real Property) by all responsible parties. A DD Form 1354 will be prepared for transfer of construction by the District Engineer, transfer of construction accomplished by the designated facility engineer, acquisitions, construction, disposal, purchased or leased real property, reactivation of excess installations, transfers of real property of non-appropriated fund or non-Army agencies to the government, transfers of accountability for usable research and development and acceptance of other construction, and any other real property accountability action.

Detailed Instructions. DD Form 1354 will be filled in as

follows:

1. From: This block will include the name of the transferring agency: organization, installation, division, etc. It will also include the address and zip code. This information is for those performing the work or making the transfer.

2. Operating Unit: For other than Army use.

3. District Code: For other than Army use.

4. Operating Agency: For other than Army use.

5. Date: This is the preparation date of the DD Form 1354.

6. Job Number: The job number depends on who initiates the job. If the Director of Engineering and Housing (DEH) or the Director of Public Works (DPW) initiates the job then they will put a job number in this block and it will relate to a special project (for contract) or a DA 4283 job order (in house).

7. Serial Number: This is the voucher number at source, e.g., DPW, COE.

8. Contract Number: If a project has been let to a contractor then the contract number will be that assigned by the contracting office in the Director of Contracting or the District Engineer contracting office.

9. To: This will include the name of the receiving organization, installation, division, etc. where the work has been performed or where the transfer has been made. The address and zip code will also be included.

-

10. **Operating Unit:** Other than Army Use.

11. **District Code:** Other than Army use.

12. **Operating Agency:** Other than Army Use.

13. **Accounting Number:** Other than Army Use.

14. **Accountable Officer Number:** Other than Army Use.

15. **Type of Transaction:** This will identify whether it is new construction, capital improvement or other. It will also indicate whether it is the final cost of the project, beneficial occupancy or physical completion. The District Engineer or in house project officer must indicate on the DD Form 1354 whether cost shown is preliminary (for Beneficial Occupancy/Physical Completion DD Forms 1354) or final cost. If it is a preliminary (estimated cost) the real property officer will create a suspense file to ensure that the district furnishes an updated DD Form 1354 with final construction cost. Update to the database should be handled accordingly. Final costs may take several years if legal claims are involved.

a. Block A: Insert an 'X' in the appropriate box of block A to indicate whether the transaction involves new construction, transfer of existing facilities or capital improvements to existing facilities. If the "Other" box is used, explain the transaction in Item 31, "Remarks" on the back of the DD Form 1354.

b. Block B: If block A has been checked for new construction then use this block to indicate whether transaction is being made at time of beneficial occupancy, physical completion, or financial completion. If the "Other" box is used, explain the transaction in Item 31, "Remarks" on the back of the DD Form 1354.

16. **Project Number:** Enter the project number and code number assigned to identify the project. For construction,

enter the public law authorizing the work.

17. Item Number: Identify each entry on the DD Form 1354 by giving it an item number. Each portion of a facility with a unique DA PAM 415-28 category code must be identified with a separate line number.

18. Category Code: This column will identify the five-digit design use category code associated with the design of the facility as indicated in the DA PAM 415-28. Each facility may have more than one design use; however, they must be identified as separate items in block 17.

19. Facility (Category Description): The description for the facility will be entered as it relates to the category short title in the DA PAM 415-28. Each facility number should be identified in this field as it relates to the construction.

20. Number of Units: Self-explanatory.

21. Type: This will indicate the type of construction: "P" = Permanent, "T" = Temporary and "S" = Semi-permanent.

22. Unit of Measure UM1, UM2: This indicates the gross area or capacity of a facility as it relates to the design use category code of the facility. See DA PAM 415-28.

23. Total Quantity: This indicates the total quantity of the facility as it relates to the unit of measure assigned to the facility: e.g., UM1 = square feet (SF), acres (AC) or square yards (SY), UM2 = each (EA), families (FA), etc.

24. Cost: Cost for each line item entry must be entered. All engineering, design and inspection costs associated with a project must also be captured on the DD Form 1354.

a. If the cost is the final cost figure for the line

item it will carry an alphabetical suffix of "F" indicating that it is a final cost. If the cost is preliminary it will contain a "P" indicating it to be a preliminary cost and not final.

b. If the cost is a capital improvement to an existing facility previously accounted for, enter only the amount which will increase the cost of the real property, i.e., enter the amount by which the general ledger balance is to be increased.

c. All engineering, design and inspection costs will be entered on the DD Form 1354 for the real property office to capitalize as project costs. These will be identified as a separate entry.

Types of funds are mandatory and will be shown in column 24 or column 26 (i.e.: MCA, Housing, and NAF).

25. Drawing Number: Indicates the number assigned to a particular drawing of a construction project as it relates to the different components to a facility: the architectural drawing would be number one, the plumbing would be number two, etc. Using the old manual system the drawing numbers would relate to each page of the project, however, now that the automated system of CADD is operational at many installations this is not the case.

26. Remarks: Self-evident. This field may be used to note any information about the drawing numbers, project number, reason for the DD Form 1354: change in unit of measure, reason for increase/decrease in cost, etc.

27. Statement of Completion: Indicates the signature/title of the individual responsible for the transfer of the facility/equipment. The date is self explanatory, however, the date must be prior to or the same as the date of acceptance in item 28 on the 1354.

28. Accepted By: Indicates the signature/title of the individual responsible for accepting the transfer of such properties. The date is self-explanatory.

29. Property Voucher Number: This number will be assigned sequentially by the receiving real property office to indicate the voucher occurrence that the transaction was accepted/vouchered.

Example: V123-90, This indicates that this is the 123rd voucher for FY 90. When an installation transfers from one to another, the losing installation fills in block 7 and the gaining block 29.

30. Construction Deficiencies: This should indicate any deficiencies of the design or construction of the project.

31. Remarks: Self-explanatory. If the "Other" box is checked in item 15 an explanation should be noted in the "Remarks" column.
